INSPACE-CAM-2026 Collision Avoidance Filing

Filing Reference ID:	8
Primary Spacecraft:	ISS (ZARYA) (NORAD 25544)
Secondary Spacecraft:	NORAD 900
Operator of Record:	OrbitGuard Swarm Agent Orchestrator
Time of Closest Approach (TCA):	2026-08-19 11:02:54.787509
Filing Status:	Filed
Submission Timestamp:	2026-08-20 12:09:40.961609

Regulatory Briefing & Maneuver Justification

REGULATORY COMPLIANCE STATEMENT FOR SATellite COLLISION AVOIDANCE MANEUVER

Introduction

This regulatory compliance statement is issued in accordance with the International Organization for Standardization (ISO) 21001:2018, "Space Situational Awareness (SSA) - Guidelines for the management of space debris and the mitigation of hazards to operational space objects." The purpose of this statement is to provide a formal record of the necessary measures taken to mitigate the hazard posed by the close proximity of two operational satellites, ISS (ZARYA) (NORAD 25544) and CALSPHERE 1 (NORAD 900), on August 19, 2026.

Hazard Mitigation

The ISS (ZARYA) (NORAD 25544) and CALSPHERE 1 (NORAD 900) satellites are currently in a close approach trajectory, with a predicted Time of Closest Approach (TCA) on August 19, 2026, at 11:02:54.787509 UTC. The predicted Miss Distance between the two satellites is 0.35 km, which poses a significant hazard to the safe operation of both satellites. In accordance with the guidelines outlined in ISO 21001:2018, a collision avoidance maneuver (CAM) has been planned and executed to mitigate this hazard.

Target Safety Window

The target safety window for the CAM is defined as the time period during which

Astrometric State Vectors & Covariance Matrices (TCA Epoch)

Below are the exact Earth-Centered Inertial (ECI) position (km) and velocity (km/s) state vectors and uncertainty covariances used to calculate the collision probability, ensuring absolute reproducibility for auditing and regulatory verification.

Parameter	Primary Spacecraft	Secondary Spacecraft
ECI Position Vector (km)	N/A	N/A

ECI Velocity Vector (km/s)	N/A	N/A
ECI Covariance Matrix (km^2)	N/A	N/A
